Product Description	<p><b>SOVOS Platinum FORCE Bleed Control Trauma Kit</b></p> <p>When controlling severe haemorrhages, having a kit equipped with the right medical supplies is essential. User-friendly Bleed Control Trauma Kits are vital to the effectiveness of first responders in critical situations.</p> <p>The <b>SOVOS Platinum FORCE</b> Bleed Control Trauma Kit is designed to handle life-threatening haemorrhages, lacerations, Burns, and minor injuries providing high-quality medical supplies to meet urgent needs. Packed in a compact, lightweight bag, the kit can be secured to a harness for immediate and rapid access. The kit is supplied with a load rated tether and connector.</p> <p>Packed in a compact yet spacious bag, this kit offers increased capacity to accommodate additional critical materials essential for first responders. The fast-access, single-pull, full-length front opening flap ensures immediate visibility and access to all contents.</p> <p>A removable, double-sided central storage panel enhances organization, featuring mesh-fronted zip pockets on one side and elasticated loops on the reverse.</p> <p>Equipped with anti-slip leg straps, a removable waistband, and PAL webbing, the pack can be securely attached to the body or integrated with other gear, ensuring ease of use and reliable positioning in high-pressure situations.</p> <p>The term "Platinum 10" highlights the critical first 10 minutes after a traumatic injury or medical emergency. This window of time is vital for swift and efficient action by first responders, emergency personnel and potentially the casualty themselves to improve survival rates and minimise long-term harm through controlling major bleeds and stabilising injuries.</p> <p>The <b>SOVOS Platinum</b> kits enable trained first aiders, advanced medical professionals and first responders to deliver lifesaving care during emergencies while awaiting the arrival of the emergency service team.</p>
